

# Justice Endeavors

International Presentation Women - San Francisco

By Sister Pat Davis

November 2021

## Prayer of Thanksgiving

We who read this today, give you thanks for opening our eyes, lives and hearts to people beyond our horizons. During our pilgrimages of encounter with other people in lands no longer far afield, some part of us has sprouted and seeks now to grow in the beauty of the garden of our hearts. We pray that you

teach us how to care for this seedling of solidarity of hope, of healing. We pray for good soil, rain and sunshine so that our seedling within may endure the test of time and seasons. We who pray this today give you thanks for our worldwide hearts.

- Steve Hicken, Maryknoll

**A Harvest of Justice...**The justice endeavors of all of us, daily, weekly, monthly are gathered in a well-worn basket filled to the brim. There is no doubt that they are making a difference in other's lives and in our environment. What a blessing to yield such a harvest as Presentation Women.

**Feeding the Hungry...**Martha's Kitchen on the parish grounds of Sacred Heart in San Jose is celebrating their 40th Anniversary. Down through the years many of us have served there. Sister Catherine Mary King is there very early most mornings, chopping vegetables for the main meal of the day before she begins her teaching at Our Lady of Grace.

**Black Catholic History Month...**November is set aside by the Church for special prayers of gratitude for the gift of the black community in the history and life of our church. You will receive a [special November calendar](#) to use for reflective prayer.

**COP26 Climate Conference...**Hopefully this conference will dominate the media outlets. One aspect being discussed is the effect of nuclear war. It would devastate the environment, eco-systems and inhabitants of the earth. Check out Nuclear Darkness at [www.nucleardarkness.org](http://www.nucleardarkness.org).
